

Manager Prepaid Business

Department: Products | Commercial

Work Location: K. Hulhumale'

Job Description

- Lead prepaid performance analytics to identify growth opportunities and risks.
- Design and optimize prepaid product portfolios using customer segmentation, predictive analytics, and pricing elasticity insights to enhance value and profitability.
- Support commercial planning by driving budgeting and forecasting using financial simulations, ARPU analysis, and sensitivity modelling.
- Execute acquisition, retention, and revenue growth through advanced customer analytics.
- Collaborate in designing competitive pricing strategies and business cases to strengthen market performance.
- Manage end-to-end product lifecycle using data-driven decision-making and KPI tracking.

Qualification & Experience

- Bachelor's Degree in Data Science, Financial Economics or in a related field.
- Minimum 5 years of experience in a similar role.
- Proficiency in digital platforms for campaign development and customer engagement.
- Knowledge of data science modelling to support customer and pricing decisions.
