

WE'RE HIRING

Marine Mechanic

Key Responsibilities

- Perform routine maintenance and repairs on marine engines, outboard motors, and equipment.
- Troubleshoot mechanical issues and carry out necessary repairs efficiently.
- Conduct technical checks to ensure vessels meet safety and operational standards.
- Maintain accurate service logs, repair documentation, and maintenance history.
- Coordinate with operations to schedule maintenance and minimize vessel downtime.

Requirements

- Education: Diploma or certificate in Mechanical Engineering or a related technical field.
- Experience: 2–3 years of hands-on experience as a marine mechanic or maintenance.
- Technical Knowledge: Knowledge of marine diesel engines, hydraulics, and electrical systems.
- Problem Solving: Ability to troubleshoot and repair mechanical faults independently.
- Work Ethic: Physically fit, reliable, detail-oriented, and able to perform in demanding marine environments.
