

WE'RE HIRING

Outboard (OB) Mechanic

Key Responsibilities

- Carry out routine servicing, overhauls, and repairs on outboard marine engines.
- Identify and troubleshoot mechanical, fuel, cooling, and electrical faults on outboard units.
- Inspect and repair steering assemblies, throttle cables, trim/tilt hydraulics, and fuel lines.
- Perform pre-departure checks and test runs to ensure vessel safety and peak performance.
- Keep accurate service records, repair logs, and assist with managing spare parts inventory.

Requirements

- Education: Technical certificate or vocational training in Marine or Mechanical Fitting.
- Experience: 2+ years of experience in servicing and repairing outboard marine motors.
- Technical Knowledge: Knowledge of 2-stroke and 4-stroke outboard engine mechanics.
- Practical Skills: Skilled in mechanical tools, diagnostic equipment, and reading basic schematics.
- Work Style: Physically fit, detail-oriented, and able to perform under fast-paced fleet operational demands.
