Immediate Hiring | Male', Maldives
Open to Maldivian and International Candidates

ABOUT MALDIVES PREMIER BANK (MPB)

We are a digital-first, relationship-led commercial bank established to redefine banking in the Maldives and to support the nation's next phase of economic growth. We focus on serving retail, corporates, institutions & premium clients across priority sectors such as tourism, trade, infrastructure & sustainable development, differentiating ourselves through high-touch relationship banking, & smart, tailored financial solutions.

We are seeking an experienced Information Security Officer, who will provide independent oversight of information security risks while working closely with IT, business functions and external service providers

KEY FOCUS AREAS

- Develop and maintain the Bank's information security framework, policies and standards.
- Identify, assess, monitor and report information security and cyber risks.
- Review and challenge security controls across systems, digital channels, cloud services and third-party providers.
- Oversee information security incident management, escalation and remediation.
- Coordinate security assessments, penetration testing and follow-up of findings.
- Support compliance with applicable Maldives Monetary Authority requirements and other relevant obligations.
- Promote information security awareness across the Bank.
- Prepare risk reports for senior management and relevant committees.

IDEAL PROFILE

- Bachelor's degree in Information Security, Cybersecurity, Information Technology, Computer Science, Information Systems, Technology Risk or a related field.
- At least five years of relevant experience in information security, cybersecurity, technology risk or a related area.
- Practical experience in information security governance, risk assessment and security-control frameworks.
- Professional certifications such as CISM, CISSP, CRISC or ISO/IEC 27001 Lead Implementer/Lead Auditor are highly desirable.

APPLICATION

- Apply by sending your CV to: hr@mpb.mv (Subject: Application – Information Security Officer)
- Application accepted until a suitable candidate is selected
- Only shortlisted candidates will be contacted
